

ReNEWed® International Electronic V-8 Engines Get the Job Done

MODEL YEAR 1994–2003 T444E 7.3L DIRECT INJECTION ENGINES
MODEL YEAR 2002–06 VT365 (6.0L) ENGINES

International offers reliable remanufactured electronic V-8 short blocks, long blocks and running engines that deliver superior reliability over a rebuilt or aftermarket remanufactured engine.

FACTORY-TESTED CONFIDENCE

- Each part is fully cleaned and inspected, not just spot inspected
- All fuel system work is done by a team of experts
- Air pressure decay and wet pressure tested to ensure leak-free performance
- Short and long blocks are SIMM tested and *Torque to Turn* checked to assure specified oil pressure and running resistance
- Running engines are dynamometer tested to assure maximum performance under load
- All OEM sensors, controls and glow plugs are new
- Plateau honing of cylinder bores assure long ring life and maximum oil control
- High alloy valve guides assure oil control and reduce sticking valves (T444E)
- All new OEM lube oil cooler bundles (T444E), OEM lube oil plate coolers (VT365), EGR coolers on trim engines (VT365), EGR valve and water pump on trim engines (VT365)

BACKED BY A LIMITED WARRANTY

- Short and long blocks are covered for 12 months/unlimited miles
- Running engines are covered for 24 months/unlimited miles
- Fuel injectors, fuel pumps, hydraulic high-pressure pumps, glow plugs, sensors, sending units and turbochargers installed by the suppliers are covered by this limited warranty for one year

REBUILT VS. ReNEWed®

Don't confuse the two! Rebuilt engines and components are usually done in a local shop and standards vary widely. Rebuilders do not have access to engineering prints or improvements and can only replace obviously worn or broken parts. Others are cleaned and simply reused. Diagnosing issues can be tricky. Not addressing the cause of failures leads to failure again and again.
